

Cyberdeck Build — Further Reading

Verified external resources, organized by lesson. All links live at time of writing.

Lesson 1 — Power budgeting

READ SparkFun — Single-Cell LiPo Battery Care (charging safely)

<https://learn.sparkfun.com/tutorials/single-cell-lipo-battery-care/charging-lipo-batteries-safely>

WATCH Beware of Bad LiPos — Collin's Lab Notes (Adafruit Industries)

<https://www.youtube.com/watch?v=ILArrTIMFyM>

Lesson 2 — Display selection & configuration

READ Raspberry Pi Documentation — Touch Display

<https://www.raspberrypi.com/documentation/accessories/display.html>

Lesson 4 — Real-world testing

READ Raspberry Pi Documentation — Remote access / SSH (for headless-trimming the OS remotely)

<https://www.raspberrypi.com/documentation/remote-access/ssh/en/>

Prerequisite project

CHAIN-K Raspberry-Pi-Tinkering — the systemd/headless-setup skills this project builds directly on

[../Raspberry-Pi-Tinkering/](#)

Cyberdeck Build · Chain K · niciahrymer-hillian — these same links are also live-clickable in the interactive tour's per-lesson "Continue learning" sections.
